

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/CPI, specifically.

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

Additional Personal Comments:

My life depends on eating organic food. GE food is cold blooded murder.

# WHAT'S THE FDA TRYING TO FEED US?

The Center for Food Safety and the Organic Consumers Association, joined by 50 other groups, have filed a legal petition with the Food and Drug Administration to take all genetically engineered (GE) foods and crops off the market and subject them to rigorous safety-testing. The OCA calls for a moratorium on all GE foods and crops until they can be proven safe for human health and the environment.

**TAKE GENE-ALTERED FRANKENFOODS OFF THE MARKET!**

**GENETICALLY ENGINEERED FOODS STOP THE EXPERIMENT!**
